

SACS - Invited Input on Potential Quality Enhancement Plan Topics

As part of the SACS reaffirmation process, the University of Houston must develop and implement a Quality Enhancement Plan, whose goal is to improve student learning. A QEP Topic Committee has been working since the Fall 2006 semester to identify potential topics and solicit input from faculty, students and staff.

Three topics rose to the top of the field, and concept papers were developed for each:

- [Undergraduate Research](#)
- [Writing in the Disciplines](#)
- [Student Mentoring/Academic Support](#)

We need your input as well. Therefore, we invite you to share your thoughts on the potential topics and concept papers.
